Von Anthony Tucker-Jones : Armoured Warfare in Northwest Europe 1944-45 (Images of War) before purchasing it in order to gage whether or not it would be worth my time, and all praised Armoured Warfare in Northwest Europe 1944-45 (Images of War):

Eine Fundgrube fr jeden ModellbauerVon Erich WagnerDa ich schon mehrere Bcher ber dieses Thema habe, Englisch fr mich kein Thema ist, das Buch, das ich gekauft habe (aus England) sehr gbstig war, habe ich sofort zugeschlagen. Bcher ber diese Themen auf der Modellbausparte gibt es, aber vllig berteuert und teilweise mit falschen Angaben.Wie ich schon darlegte, ist das Buch in Englisch geschrieben, aber heutzutage kann und darf man Englisch nicht mehr als Fremdsprache bezeichnen. Etwas skeptisch war ich wegen der Taschenbuchausgabe, da ich die anderen Bcher zum gleichen Preis gebunden gekauft habe; die Sorge ist unbegrndet. Sauber gebunden und gefalzt, wer etwas kaputt bekommen will schafft das natrlich auch mit dieser Ausgabe.Fr einem ambitionierter Modellbauer ist diese Bcherreihe

eigentlich unentbehrlich, da man hier die diversen Fahrzeuge in echt studieren kann. Ich wohne in Stolberg (Rhld.) und hier hat sich 1944-1945 einiges zugetragen, man trifft jeden Tag auf Rest und Relikte dieser Epoche. Mit Hilfe dieser Bnde kann man vieles besser verstehen und einordnen. Das Buch ist fr den geneigten Leser, der auch noch Modellbau betreibt. ein Muss und fnf Sterne wert.

KurzbeschreibungThis latest volume in Anthony Tucker-Jones's series of photographic histories of armored warfare records in graphic detail the role played by tanks, infantry fighting vehicles and self-propelled artillery during the decisive campaign in northwest Europe in 1944-5. In a sequence of over 200 archive photographs he shows how American, British, Canadian, and Polish armored divisions spearheaded the assault on the Third Reich, and how the Wehrmacht mounted a desperate armored defense. Tanks were required to operate in the dust of Normandy, the mud and waters of the Scheldt and Rhine rivers and the snows of the Ardennes and the forests of Germany. A succession of crucial armored engagements was fought during the D-Day landings, Operation Goodwood and the struggle for the Bourguibus ridge, the Falaise pocket, the Seine crossing, Arnhem, the German attack in the Ardennes, the Rhine crossing, in the Reichswald and during the rearguard actions and the last-ditch tank battles fought by the panzers in the Ruhr before the German surrender. Anthony Tucker-Jones's photographic survey of the ultimate tank battles of the Second World War illustrates the range of armored fighting vehicles that were developed during the conflict, and it features the specialized vehicles deployed in Europe for the first time such as the Buffalo, DUKW, Weasel and Terrapin.

PressestimmenComplementing the images is a detailed narrative text placing the pictures in full historical context...A treasure trove of visual military history, *Images of War: Armoured Warfare in Northwest Europe 1944-1945* is an excellent addition to reference and college library collections.
