First Rate; My Astrology BibleVon Ein KundeHaving gotton the Astrology bug a couple of years ago, I have read a number of astrology books and perused many more.Isabel Hickey's book serves as the astrolgoy "bible" for me. It's stand-out quality is how well it takes one through the fundamentals of astrology while at the same time revealing deep and sprituually profound truths underlying "the cosmic science."It is really a wonderful book.I use it so much that my copy is literally taped together at this point to keep it from falling apart. I don't want to use a new copy because I have come

to rely on the many notes, annotations and underlining of key passages I've written in the text. I have hundreds of books in my home and can say that for no volume except "Astrology, A Cosmic Science." I would recommend anyone - the beginner, the advanced, and the just plain curious - to buy this book. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A comprehensive spiritual approach to astrology Von Casca This is one of the best books on practical astrology. Hickey shows how astrology can be used to aid a person's spiritual development. "Astrology is not fatalism. The birth-chart indicates certain physical, mental, emotional and spiritual tendencies with which the person is endowed at birth. The blueprint shows what the soul has on its spiritual ledger - the debits and credits." This book shows how the higher side of planetary forces can be used for spiritual growth. All the important features of chart interpretation are given, including the meaning signs on house cusps. Along with the works of Dane Rudhyar, this is an astrology book I often refer to. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A classic astrology guide. Von Matthew McWilliams A deep, thorough astrology text. An interesting tool for budding astrologers as well as anyone interested in human psychology. Some passages are so beautifully worded as to deserve the term 'poetic' and there are also good poems! (Especially "Saturn"). This differs from some astrology guides in that it doesn't gloss over the personal lackings that particular planetary positions may show in individuals. For instance for 'Venus in Scorpio' it says 'Everything about the love nature needs regeneration and reorientation' and for Saturn in Cancer: 'An ambitious and shrewd person to whom material things are very important.' Perhaps a bit brutal and offensive or do we need these home truths?

Kurzbeschreibung New edition of the classic. Isabel Hickey's classic, comprehensive text of spiritual astrology is now in a new edition. This handy reference book provides a strong foundation for the beginner, as well as new insights and self-knowledge for more advanced astrology students. Isabel Hickey's emphasis on the deeper, more metaphysical aspects of astrology's mysteries has resulted in continuous word-of-mouth recommendation by enthused readers. with a Foreword by internationally renowned author of eight popular books on modern astrology, Stephen Arroyo Pressestimmen "A comprehensive textbook that I would recommend especially to those who are interested in karmic, spiritual and evolutionary astrology... The author was a much-loved and respected teacher whose work shaped many of today's counselors and teachers." -- Donna Van Toen, Mountain Astrologer Book Kurzbeschreibung New edition of the classic.
