**Von Peter Brown : Authority and the Sacred: Aspects of the Christianisation of the Roman World (Canto original series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Authority and the Sacred: Aspects of the Christianisation of the Roman World (Canto original series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Erudite, elegant and satisfyingVon Scott DarbyA brilliant analysis of the slow process of Christianising the Roman Empire. Brown writes in a learned yet clear manner, and addresses one directly as if in conversation. He guides the reader through his own considerations over the years, and displays not only his incomparable understanding of this topic, but also his interesting shifts of belief in different areas, as well as challenging or developing the theses of other scholars. A deeply personal and stimulating read, especially for those who enjoyed his 'World of Late Antiquity' and 'Augustine of Hippo'.0 von 0 Kunden fanden die folgende Rezension hilfreich. KurzbeschreibungThe Christianisation of the Roman world lies at the root of modern Europe, yet at the time it was a tentative and piecemeal process. Peter Brown's fascinating study examines the factors which proved decisive and the compromises which made the emergence of the Christian 'thought world' possible: how the the old gods of the Roman Empire could be reinterpreted as symbols to further the message of the Church. Peter Brown also shows how Christian holy men were less representative of a triumphant faith than negotiators of a working compromise between the new faith and traditional ways of dealing with the supernatural worlds.Pressestimmen'A brilliant book, by a scholar to whom church historians are already deeply indebted, providing ample material for further debates.' The Expository Times' ... the treatment is fresh and independent'. The Times Literary Supplementber das ProduktThe Christianisation of the Roman world lies at the root of modern Europe, yet at the time it was a tentative and piecemeal process. Peter Brown's study examines the factors which proved decisive and the compromises which made the emergence of the Christian 'thought world' possible.
