Von D.V. Berkom : Bad Spirits: (Kate Jones Thriller #1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bad Spirits: (Kate Jones Thriller #1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Heart Pounding!Von T.M. HobbsI began the first of the Kate Jones stories a few days ago and I must say, my heart was pounding throughout the entire series. D.V. Berkom has captured your attention and capitalized on a story about a woman trying to escape the mistakes of her past within the first few pages. But she can't break free from her ex-

boyfriends grip that easily and his reach is far and wide. Just when I would take a breath and think things were going to slow down a bit, someone else was coming after Kate in an attempt to either kill her or retrieve the money she had stolen from her ex. I greatly enjoyed these stories and even envisioned this series being made into a movie. If you love action, excitement, and want to see a woman run for her life in an exotic setting deep inside of Mexico, take the time to read D.V. Berkom's *Bad Spirits*. It will be well worth your time.
