separation of powersVon Ein KundeI am a law student in the university of Plymouth and i would like you to send me some information that this book contains, concerning the subject of the separation of powers. Your advice will be of great help. Thank you.

KurzbeschreibungWalter Bagehot's anatomy of The English Constitution is a classic of English political writing. In this new Cambridge Texts edition it appears for the first time in its original (1867) book version, with Bagehot's original conclusion, and the substantial introduction written for the second edition of 1872. Paul Smith's introduction places Bagehot's views in the context of contemporary events and prevalent views of the working of the constitution, indicating their relation to his developing ideas on the anthropological and sociological springs of authority. He assesses the accuracy of Bagehot's account of parliamentary government in operation, and the strength of Bagehot's analysis of the difficulties faced by British liberalism in coming to terms with the approach of democracy. All the usual student-friendly features of the Cambridge Texts series are present, including a select bibliography and brief biographies of key figures, and annotation which explains some of Bagehot's more arcane contemporary allusions.Pressestimmen"Helpful yet unobtrusive, Smith's is an ideal introduction for those seeking to locate Bagehot in the context of his time or for those looking for an informed summary of his argument, motivation, and general purpose." Adam Tomkins, University of Oxford, Constitutional Commentary"This is one of those rare, intelligent treasures that one cherishes...In essence this is the ideal instrument for teaching about Bagehot's view of the Constitution. This edition is far more useful for the classroom." British Politics Groupber das ProduktIn this new rendition of Bagehot's English Constitution, Paul Smith presents the first (1867) edition, together with the original conclusion, as well as Bagehot's introduction to the second edition of 1872. All the usual student-friendly features of the Cambridge Texts series are present, including introduction, bibliography, biographies and annotation.
