Von Burkard Baron Von Mullenheim-Rechberg : Battleship Bismarck: A Survivor's Story (Bluejacket Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Battleship Bismarck: A Survivor's Story (Bluejacket Books):

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. This book reveals in detail a legendary naval episode.Von Ein KundeBattleship Bismarck: A Survivor's Story is a master piece of naval history. I have read this book several times and each time I have come away with more knowledge about Operation Rhine. The book is complete with details of the launch of the Bismarck at the Blohm Voss Ship yards

to its final destruction in the north Atlantic. The author has been very objective in his account of the Bismarck's maiden and final voyage. I also recommend the book "Pursuit" by Ludovick Kennedy which details the British side of this naval hunt.0 von 1 Kunden fanden die folgende Rezension hilfreich. The Rhine Exercise from the German point of viewVon Ein KundeA fantastic book written from the other side's point of view. Great detail about life aboard the Bismarck, the thinking of those aboard the Bismarck, and what happened on the ship during the Rhine Exercise. The chapter dealing with the night before the final battle is both riveting and haunting.This book brings not just the Bismarck, but the men of the Bismarck back to life for a brief moment in time. You'll never look at this battle the same way again.0 von 1 Kunden fanden die folgende Rezension hilfreich. Excellent first-hand accountVon Ein KundeThis is the book to read if you're interested in the legendary voyage of the Bismarck. Perhaps no naval story of the twentieth century is as dramatic as that of the Bismarck's battles in the North Atlantic. As a survivor, the author provides an exceptionally interesting perspective.

KurzbeschreibungOriginally published to much acclaim in 1980, this is the story of the legendary German battleship that sunk the pride of the Royal Navy, HMS Hood, on May 24, 1941, and three days later was hunted down and sunk by the British during one of the most dramatic pursuits in naval history. Told by a German naval officer who witnessed both sinkings, the book chronicles the brief but sensational career of what was thought to be the grandest weapon of the Third Reich. Burkard Baron von Mllenheim-Rechberg, the Bismarck's top-ranking survivor, tells the battleship's story from commissioning to the moment when the captain gave a final salute and went down with his ship.The epic battle between the two great enemy ships captured the imagination of an entire generation and became a popular subject for movies and songs. With the discovery a few years ago of the Bismarck's sunken hull off the coast of France, worldwide attention has focused again on the famous ship. Reprinted now in paperback for the first time, the work presents the human dimensions of the event without neglecting the technical side and includes information on rudder damage and repair, overall ship damage, and code breaking. The book also provides insights into the author's life as a prisoner of war in England and Canada and the friction that existed between the Nazis and non-Nazis Germans in the camps. Such a personal look at one of the most famous sea encounters in the history of World War II makes absorbing reading.
