Von Theodore C. Mason : Battleship Sailor (Bluejacket Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Battleship Sailor (Bluejacket Books):

aboard the USS Arizona and was on board the Arizona when she went down in Pearl Harbor. This book is his first-hand account of his experiences leading up to and including that event. Having been in the Navy and also having been stationed at Pearl Harbor for several years, I thought it was very good. I would recommend it to anyone who wants a first-hand, 'bird's eye' view of a major historical event and not a relatively dry, textbook account.

I couldn't lay this book down, once started. Ted Mason put me back in Hawaii during those dark days of 1940/41. He vividly describes how it was to be a sailor in the rigid "pecking order" of the "Old Navy." As a Pearl Harbor Survivor myself, he made that day come alive. More important, he reminded me of the days of the fleet at San Pedro in 1939. Read it if you have any interest in how it was to be a young bluejacket in the pre-war Navy.

Kurzbeschreibung Vigorous and highly readable, this portrait of the enlisted man's life aboard the U.S. battleship California depicts the devastation at Pearl Harbor from the hazardous vantage point of the open "birdbath" atop the mainmast.
