Von Howard Davis : Beginning Human Rights Law (Beginning the Law) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beginning Human Rights Law (Beginning the Law):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. An excellent first step.... Von Phillip Taylor MBEAN EXCELLENT FIRST STEP TO UNDERSTAND WHAT HUMAN RIGHTS IS ALL ABOUT An appreciation by Phillip Taylor MBE and Elizabeth Taylor of Richmond Green Chambers As Howard Davis says in his Preface, human rights is an important and interesting topic, and not a day passes but there is some story in the media dealing with human rights. Davis sets out in his excellent text book a formidable explanation of the subject of Human Rights Law in easily understandable terms for what can be a difficult area of law for many to study (and teach) although it may look superficially easy! As with all the Routledge text books,

this particular title is probably the best on the market as an introduction to the way in which human rights operates in England and Wales. We consider that this book has a much wider potential readership for anyone interested in the development of this topical law area. One of the main reasons why we consider the Routledge series of legal textbooks to be of outstanding value both in terms of cost and in content is the way in which their authors (all legal experts) explain substantive legal issues in such a readable fashion. For both tutors and students, a decision on which textbook or revision book to use is always difficult but it is clear to us from the feedback we have received from students that the Routledge texts lead the legal field. Many of their titles also have excellent links to websites sometimes marked as companion websites which also add much assistance to the hard-pressed learner and is a great additional tool for all. We would also say that the formats used by Routledge for their books are very much of a mainstream formula for legal texts which eases the student into methods of legal reasoning for those just beginning their legal studies and for all undergraduates: they certainly helped us with our preparation so do ensure you look very carefully at all the titles they have on offer! Davis uses diagrams, tables and what he calls on-the-spot questions to make the subject come alive. For us, the companion website is an innovation! Therefore, do look at the features at the beginning of the book which will assist with your learning and engagement with the subject matter. Davis also comments that there is a great danger of seeing human rights as merely just another set of detailed, complicated, legal rules. He adds that doing this may miss the moral and political seriousness which explains the special nature of human rights- that they should be legal limits on the exercise of power even in a democracy. So, there is much food for thought throughout this excellent primer on where we are and where we are going with the issue of human rights in the 21st century. We found the key definitions, key cases and questions of particular help to those new to the subject and the title remains an ideal first, or beginners introduction to Human Rights Law.

Kurzbeschreibung Whether you're new to higher education, coming to legal study for the first time or just wondering what Human Rights Law is all about, *Beginning Human Rights Law* is the ideal introduction to help you hit the ground running. Starting with the basics and an overview of each topic, it will help you come to terms with the structure, themes and issues of the subject so that you can begin your Human Rights module with confidence. Adopting a clear and simple approach with legal vocabulary explained in a detailed glossary, Howard Davis breaks the subject of Human Rights Law down using practical everyday examples to make it understandable for anyone, whatever their background. Diagrams and flowcharts simplify complex issues, important cases are identified and explained and on-the-spot questions help you recognise potential issues or debates within the law so that you can contribute in classes with confidence. *Beginning Human Rights Law* is an ideal first introduction to the subject for LLB, GDL or ILEX and especially international students, those enrolled on distance learning courses or on other degree programmes. Pressestimmen "There is much food for thought throughout this excellent primer on where we are and where we are going with the issue of human rights in the 21st century".
