Von Robert Kao, Dante Sarigumba : BlackBerry For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised BlackBerry For Dummies:

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Simply great!Von BookwormThis book is concise, witty and very helpful! With all the information you need (and even a bit more, if you decide to go into more depth) to be in control of your BB, you'll be using all of its great features in no time.

KurzbeschreibungJust what you need to know to take full advantage of your new BlackBerry smartphone The popular BlackBerry is used by millions of office workers and executives and has become an essential business tool. Now with an even faster and more efficient 6.0 operating system, the newest BlackBerry devices have the potential to become

pocket-sized replacements for the laptop. This fifth edition of the most popular BlackBerry guide explores all the features of the new BlackBerry and its upgraded OS. It covers setting up the device, organizing and managing your appointments and to-do list, accessing the Internet, handling e-mail, working with multimedia, synching your BlackBerry with your desktop, adding apps, and much more. The BlackBerry is the most popular handheld device for business users; an updated 6.0 operating system is being introduced for new models with an upgrade available for certain older models. This edition of the popular BlackBerry guide covers the new OS, setting up your BlackBerry, organizing and managing your calendar, handling e-mail, and accessing the Internet. Explores working with multimedia and taking great photos with your BlackBerry. Offers tips and shortcuts plus information about managing power usage, synching your BlackBerry to your desktop, and taking advantage of the expandable memory, as well as great apps you can add. Wise advice from BlackBerry experts makes this the guide you need to get the most juice from your BlackBerry.

Pressestimmen The BlackBerry will never be as easy to use as a desktop computer, but a number of tricks can ease the difficulties its size imposes on users. The following were tested on a BlackBerry Curve, but many will work on other models, too. For help with some of these, we used "BlackBerry for Dummies" and frequently pinged Robert Kao, its co-author, for ideas. (Lee Gomes, On the Road, Wall Street Journal, March 31, 2008)
