Von Leonard Murphy : Building Websites with ExpressionEngine 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Building Websites with ExpressionEngine 2:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Learn more about EE2Von Sue KleeGot this as an kindle book. This book is based on sample code that comes with EE2.It's surely not the fault of the author, but trying out the sample site there are a few (minor?) errors. I haven't fixed those yet. There are probably hints about them in the EE2 community.The book is from September 2010! It appears well organized. The screenshots are somewhat outdated, since there have been changes in EE2.

KurzbeschreibungThis book is a clear and enjoyable tutorial packed with carefully explained steps for constructing a small business website, and information for applying the skills learned to your everyday work with ExpressionEngine.

If you have familiarity with building websites using HTML/CSS or with software such as DreamWeaver or other content management systems such as Drupal, WordPress, Joomla!, or Plone, then ExpressionEngine may be what you are looking for. This book is suitable for anyone who wants to develop a fully featured web presence with a simple and straightforward tool. No prior knowledge of content management systems, PHP or ExpressionEngine is assumed. A basic understanding of HTML is necessary to follow the examples.

ber den Autor und weitere Mitwirkende Leonard Murphy Leonard Murphy was one of the earliest adopters of ExpressionEngine when it was first released in 2004, and was the author of a series of free tutorials that helped other new users to see what ExpressionEngine had to offer. The tutorials were a hit, and over the years, ExpressionEngine became more and more popular, so in 2008 Leonard expanded his tutorials into the first edition of Building Websites with ExpressionEngine. Two years later, with the release of ExpressionEngine 2, Leonard is back with a completely revised new edition. Leonard started his career in the UK, graduating from the University of Wales, Aberystwyth. In 2004, he moved to the United States and currently works for Summit Credit Union (a not-for-profit financial institution headquartered in Madison, Wisconsin). He also provides consulting and technical support for small business websites.
