Gute Anleitung Von Lanthanium Das eBook Building Your Book for Kindle ist eine gut strukturierte Schritt-fr-Schritt-Anleitung fr Autoren, die hilft, Bcher zu formatieren und auf die KDP Plattform hochzuladen. Es ist so gut beschrieben, dass es mich geradezu reizt, es einmal selbst auszuprobieren. Es gibt ja genug eBooks, bei denen man den Eindruck gewinnt, die Autoren hatten einfach nur Lust, den Prozess der Bucherstellung zu testen. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A brief introduction into building your book for Kindle, but the author didn't follow his/hers advice Von Alexander The contents is OK. But I consider it incomplete. For instance the TOC: does Kindle support more than one level in your headings? Other interesting questions are not covered: what site should a

picture you want to include have. There should be some recommendations. Finally: I was a bit confused when I started reading on my Kindle Paperwhite: the font was way too small. Honestly: I expect a perfect Kindle ebook from that is supposed to show me how to prepare my perfect ebook. There are a couple of formatting flaws that could be prevented if the author would have followed his or her own instructions. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Good in theory, now time to test it in practice Von Rromir Preparing a book with the instructions provided seems very straight forward. Hope it is as easy in practice, as it is in theory :)
