KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great introductory book to C++Von ForeverseekingI have read criticisms about this book, but if you are starting from scratch I can highly recommend it. Lots of exercises and a great progression from complete beginners on-wards. Incredibly easy to read, and has a nice logical flow.

KurzbeschreibungEssential skills made easy! Written by Herb Schildt, the worlds leading programming author, this step-by-step book is ideal for first-time programmers or those new to C++. The modular approach of this series,

including sample projects and progress checks, makes it easy to learn to use C++ at your own pace. Kurzbeschreibung Essential skills made easy!
