**Von James Byron Huggins : Cain (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cain (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. An action movie made into a novel Von Ein Kunde How to put this? 'Cain' is what an action movie should be, but is a novel instead. At least four separate set pieces with a car chase, mass damage, heroic stunts, mass slaughter, and the final battle involving very large explosions, this is what you look for for excitement and thrill, but not exactly deep observations about humankind. A good use of various allusions through names like Cain - the first killer, Solomon - the son of King David who beat a previous incarnation of the Devil, and Milton - Paradise Lost. Problems with it are that it's so typical and pat. Solomon is a more or less flawless superman, he lost his wife and daughter but hooks up

with a scientist and her daughter, the world is going to end in one of several different ways if Solomon doesn't save it, etc. Not sterling literary work either. Every other adjective describing Cain has to do with his "volcanic" strength. Byron uses the same descriptions over and over again. The most interesting characters are actually the Jesuit priest and Cain himself - a villain with a brain and the occasional philosophic musing. Everything else is just old hat, but a very amusing old hat. Final judgement - read it for the fabulous action and interesting villain, with a bonus for use of mythology. Don't read it if you're looking for literary content. (Still, don't mean to be harsh. I liked it and read it pretty quickly.)

Von Ein Kunde You knew when you heard the biblical names of Solomon Cain--that you were in for an evil battle of epic proportions. Indeed, you get just that, oh and a nanosecond of a romance. James Byron Huggins has managed to slam every nightmare you've ever had into this tall tale. We've got "CAIN," (a Golem really, and the antichrist fused into SuperMan), with some real satanical tendencies, who just happens to be a vampire (nightmares run amok in this book) and needs blood to replenish his strength every time he beats the crap out of Solomon, or gets shot more times than any gangster in Los Angeles. Not only does this monster suck blood, have the "unholy" strength of 100 men, and some evil castle dwelling minions, but he has the help of technology with his titanium reinforced body parts, and an internal (Marburg) viru-bomb set to detonate in 10 days. Could Huggins put any more of our darkest fears into a worse package? Of course we really don't hate Cain until he messes with the Catholic Church. That was his biggest mistake! Our hero, Solomon has his work cut out for him. Licking some old wounds suffered when he lost his wife child, this ever intense, one-man army is enlisted to stop Cain. Solomon's sidekicks are nowhere nearly as formidable, but Huggins does give us a couple of great archetypical characters in the General, the safehouse soldier, the priest, and the innocent child, who happens to be the daughter of the very woman (Dr. Milton) who created Cain in the laboratory using her own daughter's blood. What irony! Well, some of it may be predictable, but it is a tortuous ride to see when the good guys will bring the bad guys down and who will lose their lives in the battle. The mayhem starts so quickly in the book, that you are sure it will go nowhere because -- how much more can our hero endure? So you keep turning the pages. You turn them so quickly you miss the romance. What romance? You won't be sorry you took "CAIN" to the beach or on your subway commute home. -- D.

Von Ein Kunde This is my 1st book I have read from this author and it was truly one of the best reads out there today. If you like lots of action/adventure mixed in with a type of religious horror, this ones for you! Cain was a very interesting character and seeing how he would be brought down was exciting to say the least. I already purchased two of his other books - HUNTER and RECKONING, and will definately buy all his others. His characters were all interesting and the storyline never is boring or slow - its either fast or HIGH OCTANE! This author deserves to be a bestseller. If his books are made into hollywood movies, look out for it, because if they are made right, there is no doubt they will be blockbuster movies that make millions. This CAIN story has movie written all over it but I don't see who could play the Cain character, this guy would make Shwarzenegger look like a baby! Shwarzenegger would be perfect for the role of Solomon though because the guy was pretty super-human himself, to me Bruce Willis could not pull that off. Cain could be done in pure CGI form, now that would be a 1st and awesome in movie history. But read this book because it has lots of hours of enjoyment in it. I can't wait to read his other books, and I will review them as I finish them. A must read folks!

Kurzbeschreibung They wanted to create a superman who could kill anyone or anything at their command. But they created something far more terrible. They tried to use a fantastic combination of technology and science to create an ultimately controllable and yet ultimately unstoppable killing machine. But when the body of the legendary assassin rose from the dead in their laboratory, they realized that the soulless void within it had been seized by an ancient, malevolent evil that would use this titanic strength to destroy them all. Now CAIN must be stopped or at the end of ten days the virus within him will mutate into an airborne plague so deadly that Cain will be able to simply walk through any city on Earth and kill everyone in it. Three desperate people a soldier, a priest, and the regretful scientist that created Cain have ten days to hunt him down and kill him. But Maggie, his creator, just spent a trillion dollars and the most radical science and technology known to mankind resurrecting Cain from the dead and making him unkillable. How do you kill what cant be killed? That is the question that Solomon, the soldier and team leader and a man who has his own score to settle with the devil keeps asking himself as he loses one bloody battle after another with an unstoppable Cain. For now Cain is, quite simply, a superhuman, indestructible body inhabited by Satan. And yet, to exist, Cain must drink fresh human blood every night. But that is why Maggie equipped him with the fangs of a vampire. The hunt begins. The battle is joined. And this frantic team of broken people has ten days to stop Cain before he makes his ancient kingdom over Death his new kingdom over the Earth.
