excellentVon billI am enjoying the camera. Wonderful Apps. Only discovered one inconvenient problem so far- it seems it is not possible to make separate folders for different categories of photographs in the Galaxy W8 software. I have now hundreds of photographs all in one folder. I need to be able to sort them into new folders- family, holidays, friends etc. Also it was difficult to access the User manual on the British Samsung web site because they do not use or

recognise in the search engine the phone's popular name 'Galaxy Windows 8', the name it is sold under. Instead it has a strange code that is hard to discover.
