I've read a lot better.Von Ryan JonesI am a special forces enthusiast and I admit that i have read almost every book out there on the subject. Never fight fair is essentially a compilation of old war stories that often sound unbelievable and straight out of movies. If you like to hear old "core lore" and enjoy the simple-minded, entertaining novel then read this but if you are a military enthusiast like myself then try to steer clear of this one.0 von 0 Kunden fanden die folgende Rezension hilfreich. It was a good book, but there are betterVon Ein KundeI thought it was a pretty good book, I have read alot better but i think the reason why i gave it four stars instead of five , is because i have read so many other books on seals that i have read all the good ones and all the bad ones so i thought it was in between good and bad.0 von 0 Kunden fanden die folgende Rezension hilfreich. Overall pretty good, but some parts could have been avoided.Von Ein KundeI know that with 3 stars I am being a little too harsh, but there were sections of this book that I didn't care for at all. On the other hand, the book provides an insight into the daily lives of NAVY SEALS,and not everything they do is exciting and fun.
