Fascinating revalationsVon Ein KundeI am a great fan of Dover Books on NY. Coming from Italy where classic architecture is rife, what never ceases to amaze me is the evolution that is continously taking place in the big apple. The same spot seems to have been built upon "n" times. This book adds some beautiful photos of NY indoors as well,

in restaurants, at clubs and parties. It feels as if I had just walked into a Henry James or Edith Wharton novel.

**Kurzbeschreibung** Here are 120 wonderful vintage views from the collection of the Museum of the City of New York. Remarkable for clarity, definition and detail, the prints comprise a richly evocative portrait of turn-of-the-century life: street scenes, parks, restaurants, commercial interiors, Easter Parade, Blizzard of '99, Coney Island, a dinner for Mark Twain, etc. Informative text.
