Von Jeffrey Harris : Novell Open Enterprise Server Administrator's Handbook, NetWare Edition (Novell Press) before purchasing it in order to gage whether or not it would be worth my time, and all praised Novell Open Enterprise Server Administrator's Handbook, NetWare Edition (Novell Press):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 1 Kunden fanden die folgende Rezension hilfreich. Just the BEST... Von Ein Kunde Novell Open Enterprise Server Administrator's Handbook, NetWare Edition covers the major

components and features of Open Enterprise Server (OES) on the NetWare platform. This book helps you understand how to integrate the benefits of OES in an existing environment. After a brief introduction to the concepts necessary to introduce features, the book focuses on the implementation of OES on the NetWare platform. While this book is not a reference for network theory, protocols or architectures, the administrator will learn about adding open source options, features and technologies that extend the applicability and value of NetWare and how to use the major components and features of OES on NetWare.
