It allows me access to sound theological and reasoned answers to many question that pop into my head. This is not meant to be a highly technical book, but of the more general question variety. It is very good at what it does. I would assume Sproul wrote this so he

wouldn't have to answer so much mail on the same questions. So if you like the wit and wisdom of Sproul, I highly recommend this book. Not so much to read through, but for reference use. Especially if you question a lot and desire answers.0 von 0 Kunden fanden die folgende Rezension hilfreich.
