Von Parker Hudson : On The Edge (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised On The Edge (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The truth is so refreshing. I couldn't put it down.Von Ein KundeI am not an avid reader, I am too much of critic and cynic to be one. But I finished Parker Hudson's book in only 3 sittings within a weeks time. In the pure entertainment sense, it is a fantastic read and I could not put it down. What Parker Hudson achieves in the climax of the book is a

masterpiece, such that I am convinced it was inspired. But more importantly, I found myself looking at the characters and looking at myself in a way I found unsettling but also relieving. The truth was so well revealed that I could not help but devour the messages underneath. Many times before I read this book, I had heard the saying "the greatest lie is closest to the truth" and the idea that pride was a sin. But I never really understood, or perhaps accepted, what these two things meant until I read *On the Edge*. This book is so true to life, in its essence, that I found it completely humbling. It caused me to admit that these subtle ways in which pride invades one's life, are all too present in my own life and in society. One can tell (barely) when reading *On the Edge* that Mr Hudson is not a professional author, something I found quite refreshing. And I think it is for that reason that the subject matter is raw and real and truthful. I gave the book a five star rating because although the plot is several times slightly transparent and a little bit forced, I don't care - there is TRUTH here. And there are precious few books in my life that I can say have changed me for the better and made me more honest with myself, and there is no price for that.0 von 0 Kunden fanden die folgende Rezension hilfreich. Anointed and chilling page turner!Von Ein KundeHudson grants readers a chilling, but accurate look at life without Christ and does not hold back as he exposes the evils attacking today's families. There is a heavy anointing upon this book and a call from God to prayer, as Hudson shows the realities of lives touched by the lack of prayer versus being covered with prayer. In the lines of Frank Peretti, Hudson's work is as good, if not better in its realistic portrayal of the spirit realm and the demonstration of how one's prayers either hinder or release angels from carrying out their missions to serve mankind for the Almighty. I encourage you to read this novel - and read it with a prayerful heart to receive the message God has given to Hudson to share with the world.0 von 0 Kunden fanden die folgende Rezension hilfreich. Eep.Von JaneThis is the only book I've ever hurled against a wall. (And it felt so good, I did it again.)I know some people enjoyed this book, but I found the writing cumbersome (the first line is something like "Balzor was proud") and extremely preachy and judgmental. Would-be readers ought to be warned that halfway through the book, the author writes the characters into a corner and stops the book, then starts it over with a different set of conditions ("This is what would have happened if someone had witnessed to this family fifteen years earlier...") I felt that was an authorial cop-out.

KurzbeschreibungA faithless attorney's family is falling apart. Discover his second chance for salvation...
