**Von Amritendu De : Oracle Certified Master, Java EE Enterprise Architect Practice Guide: A comprehensive guide having 300 questions on all objectives of the multiple choice ... assignment and essay exam (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Oracle Certified Master, Java EE Enterprise Architect Practice Guide: A comprehensive guide having 300 questions on all objectives of the multiple choice ... assignment and essay exam (English Edition):

**Kundenrezensionen**  
**Hilfreichste Kundenrezensionen** 2 von 2 Kunden fanden die folgende Rezension hilfreich. Leider hat das Buch wenig mit den Themen der Prfung gemein  
**Von Kai Uwe Bachmann** Die im Buch behandelten Themen sind in der Prfung von Oracle nur gering vertreten. Manche Prfungsthemen wie z.B. Anti-Pattern kommen im Buch gar nicht vor. Sollte es mal eine bereinstimmung zwischen Buch und Prfung gegeben haben, so ist das bestimmt schon lnger her.  
1 von 1 Kunden fanden die folgende Rezension hilfreich. I wonder if the author understood the topic  
**Von Andreas** The book contains many multiple choise questions. The answers together with the questions are found at the end of the book and includes the reasons. First, some answer seems to be just not correct (at least without much more context which is not provided). Second, the reasons are follow the template "Answer A is correct because it matches the question, Answer B is not correct because it does not fit to the question". Such reasons are in most cases not helpful. What is missing is a good explanation of the a answer for exmaple by referring to the definition and for topic with several examples. But all these things are not found and either the author was too lazy to provide this or (based on the questionable answer) did not understood the topic himself but simply compied the answer from somewhere. This book might help you to pass the test but the knowledge you get with this book is close to zero.  
0 von 0 Kunden fanden die folgende Rezension hilfreich. Complete and expert level  
**Von Peter Rene Menges** Very complete collection of questions testing your knowledge of the Java Ee environment and architecture. The questions are targeted as knowing the tiers, patterns and design strategies exactly.

**Kurzbeschreibung** The Oracle Certified Master, Java EE Enterprise Architect certification is for enterprise architects responsible for architecting and designing Java EE compliant applications with an emphasis on making the best use of Java EE features to create flexible, scalable, secure designs. The book contains a total of 300 questions to help you prepare for the multiple choice exam. The chapter on Java EE assignment contains a case study closer to the real exam with all the UML diagrams and points to remember for drawing the artefacts. The chapter on the essay exam contains sample questions with detailed answers which you may be asked in the real exam.
