Von Vladimir Ajvaz, Anil Passi : Oracle E-Business Suite Development Extensibility Handbook (Oracle Press) before purchasing it in order to gage whether or not it would be worth my time, and all praised Oracle E-Business Suite Development Extensibility Handbook (Oracle Press):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Best Overview over Oracle E-Business Suite CustomizingVon Thomas R.This book describes best all our issues in customizing Oracle E-Business Suite.Even if me and my colleagues are now working in this business for over 10 years, I could find on my first survey through the pages usefull hints and chapters, where I still need some advice like XML-Gateway and OAF (Oracle Application Framework) customizing.It is a must for beginners and even very usefull for experts, specialy the ones which like using books, instead of Whitepapers.My only critic/advice: URLs for

downloading the sample scripts, would help the reader/trainee to play with the mentioned examples.

Kurzbeschreibung Extend and Customize Oracle E-Business Suite Transform your Oracle E-Business Suite infrastructure to suit enterprise requirements using the comprehensive development methods in this Oracle Press guide. Oracle E-Business Suite Development Extensibility Handbook lays out each tool alongside reusable code and step-by-step examples. Learn how to create multiorg objects, integrate Java and PL/SQL, design custom user interfaces, and use Oracle Application Framework and Oracle Workflow. This detailed volume also explains how to work with Oracle XML Gateway, publish dynamic business intelligence reports, and tune your configuration. Manage an efficient development platform with Oracle Application Object Library
