Von David Sheinkin : Path of the Kabbalah (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Path of the Kabbalah (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. These are the answers I wanted when I was 5. Finally!Von Ein Kundelf you're tired of "you just have to believe it" or "you can't ask those question" while you ponder the questions of God and the Universe you'll find comfort in this book. While it deals with God and science, it feels neither religious or scientific, yet also is both. For someone who comes to it knowing nothing, the presentation communicated with beauty and ease of understanding. While you are given an

amazing number of previously elusive answers, you are left inspired to know more. While I have delved into the books he suggested as well as others, this remains the most affecting core read. I immediately gave 4 copies away and look forward to discussing the subject with those friends when they are done with the book. Having spent the last 6 years in the Bible Belt it is especially refreshing. 1 von 1 Kunden fanden die folgende Rezension hilfreich. What a Mind-Blowing book! Von Ein Kunde Kaballah is infamous for being cryptic and hard to understand but David Sheinkin actually makes it all make sense. He is able to logically unify science and the torah so as they are actually consistent with each other. Wonderful!!! This is a wonderful introduction to Jewish Mysticism. Gotta read it, and you dont have to be religious to like it. 1 von 1 Kunden fanden die folgende Rezension hilfreich. No better first book on Kabbalah Von Ein Kunde It is beautifully written and holds astonishing information from non-religious standpoints as well. Excellent if you just wish to be informed on this area of mysticism/religion though you'll probably be drawn in to read much much more on the subject. Next book suggestion... Aryeh Kaplan Sepher Zefirot (Book of Creation)

Kurzbeschreibung In this classic on the Kabbalah, Dr. Sheinkin offers Jews and non-Jews a basic initiation into the origins, history, principles, symbolism, language, and disciplines (including meditation methods) of Jewish spirituality and mysticism. It is an integral treatment of Kabbalah that speaks from the depths of classical Judaism, but is sensitive to contemporary spiritual seekers. The author creates a remarkable synthesis of psychology and mysticism. He gives a vast cosmic view of history within the Kabbalahs Tree of Life doctrine, resting the outer world in the remarkably profound foundations of the inner world of the ten basic spiritual forces of the sefiroth. Pressestimmen "Sheinkin brings the full range of his highly respected gifts--as a theologian, psychiatrist, and communicator--to bear in this fine introduction to the Kabbalah." "Sheinkin brings the full range of his highly respected gifts--as a theologian, psychiatrist, and communicator--to bear in this fine introduction to the Kabbalah." Rabbi Arnold Gelman Kurzbeschreibung In this classic on the Kabbalah, Dr. Sheinkin offers Jews and non-Jews a basic initiation into the origins, history, principles, symbolism, language, and disciplines (including meditation methods) of Jewish spirituality and mysticism.
