Von Matthew Morris : Study Guide for 1Z0-050: Oracle Database 11g: New Features for Administrators: Oracle Certification Prep (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Study Guide for 1Z0-050: Oracle Database 11g: New Features for Administrators: Oracle

Certification Prep (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Schon ein wenig gruselig,Von Ora-0600aber diese Bcher beinhalten den Stoff der original Kurse von Oracle. Deshalb sind die wirklich gut, wenn man keinen originalen Oracle-Kurs besuchen will, um die Unterlagen zu erhalten. Ein Nachteil: es gibt keinen Index, aber egal, bei dem Preis????

KurzbeschreibungThis Study Guide is targeted at IT professionals who are looking to upgrade their Oracle 10G Database Administrator OCP certification to 11G. The book provides information covering all of the exam topics for the Oracle OCP exam: "1Z0-050: Oracle Database 11g: New Features for Administrators".The books in the Oracle Certification Prep series are built in lockstep with the test topics provided by Oracle Education's certification program. Each book is intended to provide the information that will be tested in a clean and concise format. The guides introduce the subject you'll be tested on, follow that with the information you'll need to know for it, and then move on to the next topic. They contain no drills or unrealistic self-tests to bump the page count without adding value. The series is intended to provide a concentrated source of exam information that is compact enough to be read through multiple times.This series is ideal for experienced Oracle professionals that are familiar with the topic being tested, but want a means to rapidly reinforce their existing skills and bridge any gaps in their knowledge. It is also an excellent option as a second source of information for candidates pursuing certification.KurzbeschreibungThis Study Guide is targeted at IT professionals who are looking to upgrade their Oracle 10G Database Administrator OCP certification to 11G. Employed by Oracle for over eleven years in support and development positions, Matthew was an early adopter of the Oracle Certified Professional program. He was one of the first one hundred Oracle Certified Database Administrators (version 7.3) and was also in the first hundred to become an Oracle Certified Forms Developer. In the years since, he has upgraded his Database Administrator certification for releases 8i, 9i, 10G and 11G, and added the Application Express Expert and the Oracle SQL Expert certifications. Outside of Oracle, he has CompTIA certifications in Linux+ and Security+. Matthew is an experienced Database Administrator and PL/SQL developer and has been creating Web applications with Oracle Application Express since the early days of its release. He is currently employed as a Database Engineer with Computer Sciences Corporation developing enterprise applications.
