Submarine Diary ReviewVon Joe SabellaCorwin Mendenhall's book, "Submarine Diary: The Silent Stalking of Japan" gives the reader a unique look into the daily operations of a WWII Fleet submarine stalking Japanese ships in the Pacific. The insight is unique because although Mendenhall was an officer aboard the USS Sculpin and then the USS Pintado, he was "an enlisted man's officer" and he tells the story of his patrols aboard these submarines from that perspective. I enjoyed reading this book because at one moment it relates the daily grind of serving on a sub and the next moment, it explodes with action as an enemy ship is spotted and attacked. I recommend this book to anyone who

is a WW II submarine junkie because it is an account of real men and real times.

Kurzbeschreibung A vividly detailed account of life aboard U.S. submarines in the Pacific during World War II.
