**Von Wolfram Von Soden : The Ancient Orient: An Introduction to the Study of the Ancient Near East** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ancient Orient: An Introduction to the Study of the Ancient Near East:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A superb review of the entire field of ancient near easternVon Ein KundeThis text is an incisive overview of the entire sweep of

ancient Near Eastern studies. Particularly valuable is the section on philology and the extent to which various available texts have or have not yet been translated. It is directly useful as a core text for coursework in any aspect of Mesopotamian civilizations.0 von 0 Kunden fanden die folgende Rezension hilfreich. Consise history of the "middle east" Von Ein Kunde Very, very interesting. Though hard to read if one is not familiar with the local wording/jargon.

**Kurzbeschreibung**This book represents the first comprehensive, interdisciplinary presentation of ancient Near Eastern civilization. Concentrating on Mesopotamia and North Syria and focusing particularly on the cultures of Sumer, Babylonia, and Assyria, von Soden covers the earliest times to Hellenization. His study of ancient "humanity in its wholeness" includes treatments of the history of language and systems of writing, the state and society, nutrition and agriculture, artisanry, economics, law, science, religion and magic, art, music, and more. Valuable background work for students of the Bible. Includes 18 black-and-white photographs.**Kurzbeschreibung**This book represents the first comprehensive, interdisciplinary presentation of ancient Near Eastern civilization.
