Great book with clear points !!Von sankalp dhasmanaAs any normal book, I expected this book to be either too basic or too complicated. But this turns out to be excellent version of everything a beginner wants to know. In fact I began reading

Brihat Parashara Hora Shastra Phaladeepika, both being among the best ones on Indian Vedic Astrology written in the earliest centuries. Hence ofcourse, they are quite complex and detailed. This book serves the whole purpose of introducing all the basic concepts of vedic astrology that a beginner could later use to build his prediction skills on. Needless to say, I almost gave up taking notes from this book because it itself serves as an excellent go-to note for all basic concepts, tabulated and described in very accurate manner. I am just going to order the volume two as well. Happy reading !- DRKO von 0 Kunden fanden die folgende Rezension hilfreich.
