Von John L. Work : The Barter (The Barter And Reckoning Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Barter (The Barter And Reckoning Series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Keeps you turning the page! Von Alana Woods This story was born from best-selling author and investigative journalist Jerome Corsis essay at World Net Daily titled China poised to play debt card for US land. John L Work took the premise of a United States in so deep a debt to China that it trades the debt for US soil. The year is 2016 and the political scene picks up where it left off in A well-regulated vengeance. Once again Work sets one mans story against world affairs and once again does it brilliantly. Although A well-regulated vengeance is a stand alone novel it is also a precursor to the three-part The Barter series, of which this is the first. Benito Hernandez, a military veteran, has been working at a chicken processing plant for some years. The kids are grown up and have left home, so theres just him and his wife. The deteriorating political situation in the US is seen through his story and his eyes. And its horrific. Work knows how to keep you turning the page and holding your breath.

Kurzbeschreibung You might want to start stocking up on food and ammunition. The year is 2018. Benito Hernandez is a retired U.S. Army Master Sergeant, working in Colorado at a job that's not too exciting. Big changes are happening in the country. An armed revolt has broken out over Congressional firearms seizure legislation. The United States is about to experience a complete civilizational and societal unraveling. Hernandez and his wife are about to live through a nightmare. Lets take a look at the not-too-distant future from a different angle, wherein the very sovereignty of a socially chaotic, financially collapsed United States goes onto the trading block and whos doing the bartering. Kurzbeschreibung You might want to start stocking up on food and ammunition. The year is 2018. Benito Hernandez is a retired U.S. Army Master Sergeant, working in Colorado at a job that's not too exciting. Big changes are happening in the country. Hernandez and his wife are about to live through a nightmare. Lets take a look at the not-too-distant future from a different angle, wherein the very sovereignty of a socially chaotic, financially collapsed United States goes onto the trading block and whos doing the bartering. ber den Autor und weitere Mitwirkende John Lloyd Work has taken the detective thriller genre and woven an occasional political thread throughout his books, morphing pure fiction into believable, terrifying, futuristic, true-to-life faction. As a uniformed cop, he answered brutal domestic violence calls, high speed chases, homicides, suicides, armed robberies, breaking up bar fights, and felt the accompanying sporadic unpredictable moments of terror - which eventually come to all police officers. He gradually absorbed the hard fact that the greatest danger a cop faces comes in the form of day-to-day encounters with emotionally disturbed, highly intoxicated people. Those experiences can wear an officer down, grinding on his own emotions and psyche. Prolonged exposure to the worst of people and people at their worst can soon make him believe that the world is a sewer. That police officers reality is a common thread throughout Works crime fiction books. One afternoon in 1976, his cousin, who eventually became the Chief of the Ontario, California, Police Department, talked him into riding along during a patrol shift. The musician was hooked into becoming a police officer. After working for two years as a reserve officer in Southern California and in Boulder, Colorado, he joined the Longmont, Colorado Police. Work served there for seven years, investigating crimes as a patrolman, detective and patrol sergeant. In 1989 he joined the Adams County, Colorado Sheriffs Office, where he soon learned that locking a criminal up inside a jail or prison does not put him out of business. As a sheriffs detective he investigated hundreds of crimes, including eleven contract murder conspiracies which originated inside the walls. While serving on the Adams County North Metro Gang Task Force and as a member of the Colorado Security Threat Intelligence Network Group (STING), Work designed a seminar on how a criminals mind formulates his victim selection strategy. Over a period of six years he taught that class in sheriffs academies and colleges throughout Colorado. His final experiences in the criminal law field were with the Colorado Sate Public Defenders Office, where for nearly two years he investigated felonies from the defense side of the Courtroom. Twenty-two years of observing human nature at its worst, combined with watching some profound changes in Americas culture and political institutions, provided plenty of material for his first three books. Work lives in northern Colorado.
