Superb
Von Mitch Reed
This is a must buy. With only a few great books on the Hurtgen Forest campaign (by Mac Donald, and Miller, both hard to get), this work will stand out as being one of the best. This book is pure Astor, gripping first person accounts (US point of view), and historical detail will keep you reading cover to cover. As a fan of Astor, I rate this ahead of some of the others (The Greatest War, Operation Iceberg, and a Blood Dimmed Tide), for the simple reason that he wrote on a battle that has often been ignored. Astor also takes you in to the Roer campaign as well. If you like Astor, The Hurtgen, or the movie "When Trumpets Fade" buy this book.
