Von Jim Bishop : The Day Lincoln Was Shot before purchasing it in order to gage whether or not it would be worth my time, and all praised The Day Lincoln Was Shot:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Easy to Read. History Written as a Good Mystery Von Wayne A. Smith Bishop writes a good book. The story is well

researched, full of fascinating details, fast paced and never dull. Although you know the ending, the tale is constructed in a way that has you hoping someone will make a move in the story to avoid the awful destiny that must unfold. My only quibble is that the author takes a lot of license with what the various players were thinking. This certainly helps flesh out the story but does the history a minor disservice by going beyond what can be known with certainty. Still, enjoyable and recommended. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Lincoln--Knew Assassination Would Come--But Served His Role Von Ein Kunde Jim Bishop is an outstanding writer and his format using hours of the day (i.e., 7:00 am, 8:00 am, etc.) took you to where everyone was at that time--Lincoln, Booth, Johnson, The Surratts etc.,. His research was in-depth and made you never question its validity. I lived in the Washington D.C. area for eight years and have visited the Ford Theater and the Boarding House Lincoln died in--after reading the book--I go visit those places everytime I return--and picture Jim Bishops clear explanation of events. After reading this book and visiting the Ford Theater--you will envision the actor John Booth jumping from the balcony and tripping as he took his last step on a theater stage. Not only will you sit in the low lighted rooms and learn of the intricate details behind the assassination--but will also learn many facts about the city of Washington D.C. during that period of time. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The Day Lincoln Was Shot Von Lennie@worldnet.att.net "The Day Lincoln Was Shot" is a must read for anybody interested in history, particularly in the civil war. This book draws the reader into the action as if they are in the booth at Fords theater on that fatal night when President Lincoln was shot at point blank range in the back of the head. This book provides a detailed account of what occurred before, during and after the shooting and provides details of the emergency work performed by doctors and the Strong but withering will of Mary Todd Lincoln. As mentioned earilier, this book is a "must read." My review alone cannot do this book justice. I have had this book before but it was destroyed due to flood (I swore that my children would read and benefit from it). It is difficult to find and thank god had a listing for it.
