**Von Jihan El-Tahri : The Fifty Years War: Israel and the Arabs (BBC Books)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Fifty Years War: Israel and the Arabs (BBC Books):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very insightful overviewVon Ein KundeThis book is based on the superb BBC series, however it is not necessary for the

reader to have seen it. Bregman and El-Tahri, a Jew and an Arab, have produced a clear, balanced and insightful book on one of the on going conflicts of the 20th century. This book is ideal for those who continually see or read about the Israeli conflict on the news and in the papers, without actually knowing what it is all about. As an overview, it will rapidly educate the reader as to the causes of the conflict and the reasons for the solution being so elusive. At times ironically amusing, it depicts the constant back stabbing, plotting and betrayal by all sides- Jewish, Arab, American and Russian. If this book is to be faulted it is that it doesn't go into great depth with regard to some of the personalities and events, however if it had done it would have been a much longer book. The writing style is very accessible, though somewhat bland. Also the photographs are relatively poor, and uninteresting. Thus, I recommend this book as an introduction to the Israeli conflict, rather than a complex in-depth historical work. 0 von 0 Kunden fanden die folgende Rezension hilfreich. WOW! Von Ein Kunde I have read many books on this subject matter, but none convey the feelings and thoughts that the key characters in the conflict must have felt the way this book does. One can grasp the anguish Nasser went through before the '67 war, and one of the most touching parts in this book is when Prime Minister Begin tells Carter that peace must be found. I'm reading this book now for the second time, and am finding undertones that I did not see the first time around. Definitely a best buy..

**Kurzbeschreibung** Since the creation of the state of Israel in 1948, the region has been the scene of fierce power struggles, injustice and tragic events - a situation which persists to this day. Now for the first time, an Israeli-Arab author collaboration is tackling one of the world's most controversial situations. Published to accompany a six-part BBC television series by the makers of the award-winning DEATH OF YUGOSLAVIA, this myth-breaking book draws on candid interviews with key protagonists in the struggles - many of whom have never before spoken out - to reveal behind-the-scenes events and put the record straight. This is a definitive insiders' account of war and peace in the Middle East.

Published to accompany a six-part BBC television series by the makers of the award-winning DEATH OF YUGOSLAVIA, this myth-breaking book draws on candid interviews with key protagonists in the struggles - many of whom have never before spoken out - to reveal behind-the-scenes events and put the record straight. This is a definitive insiders' account of war and peace in the Middle East.

**Synopsis** From its foundation in 1948, Israel has persuaded key opinion-leaders in the USA and Europe to join in the chorus of its state myth: that Israel, surrounded by aggressor Arab states, sought only peace. However, increasingly a new school of Israeli historians are exposing this view as inaccurate. Trawling through Cabinet minutes, private diaries and interviewing eye-witnesses, the revisionists have shown that from 1948 onward Israel was repeatedly intransigent and that Arab leaders were far more willing to talk peace than is realized. Now, for the first time, it is Israelis telling Israelis that it is Israel that usually escalated the level of violence.
