Fascinating, well-researched account Von Ein Kunde I was very impressed with the scope of this book. The author uses the first few chapters to describe the political situation leading to the construction of the fleets, as well as the events which led to the German internment. He next covers the activities of the fleet while at Scapa Flow in depth, and, following the scuttling, completes the account with information about the subsequent salvage operations. This book is comprehensive, but not so bogged down in detail that you lose sight of the story, its reasons and its characters. Highly recommended.

Kurzbeschreibung At Scapa Flow on 21 June 1919, there occurred an event unique in naval history. The German High Seas Fleet, one of the most formidable ever built, was deliberately sent to the bottom of the British Grand Fleet's principal anchorage at Orkney by its own officers and men. This book presents the story of the scuttling of this fleet in Scapa Flow. Pressestimmen 'Dan van der Vat is a superb storyteller' - The Northern Mariner 'an excellent book that tells its story with style and passion ... highly recommended' - New Shetlander Kurzbeschreibung At Scapa Flow on 21 June 1919, there occurred an event unique in naval history.
