Thorough and well presented Von wergreeff@hinet.co.za Dr. Evans in this book teaches on the Doctrine of God, Jesus

Christ, Holy Spirit, Man, Salvation, Church, Scriptures, Angels, Satan, Last Things. There is also eighty additional entries by Maxwell Coder. I particularly enjoyed the doctrine of God (about 50 pages) wherein he argued not only the characteristics of God but also the existence of God using a view philosophical arguments. It is however clear from reading the book that it is quite old and it's theology the same - written in the beginning of this century. For those looking for a more modern approach I would not recommend it, but for general study, looking for a good supply of scripture references and sufficient notes on different doctrines, this book is worth having.

Kurzbeschreibung A well-organized examination of ten major doctrines, including 80 subjects by topical listing. Designed to supplement personal Bible study.
